

CWP-240R

2.5" Waterproof Frameless Ceiling Speaker with Passive Radiator

Exceptional Audio Performance

Description

The CWP-240R is a waterproof ceiling speaker with a power of 40 Watt which meets the IP66 standard. It is designed to be used in a wide variation of in- and outdoor applications and damp locations and features a 2.5" full range loudspeaker with passive radiator for deep bass. Due to its wide smooth frequency response and high efficiency, it ensures high-fidelity music reproduction and intelligible speech at very low distortion. It can be used in low impedance systems.

IP66 Neodymium Aluminium Ceiling Speaker

- Elegant outlook and extraordinary performance
- Neodymium double magnetic driver to produce good sound with small power
- Strong aluminium die-casting housing
- Bottom passive radiator to produce better bass for the music
- IP 66 for very wet and humid applications [Spa, Bathroom, Sauna place and etc.](#)

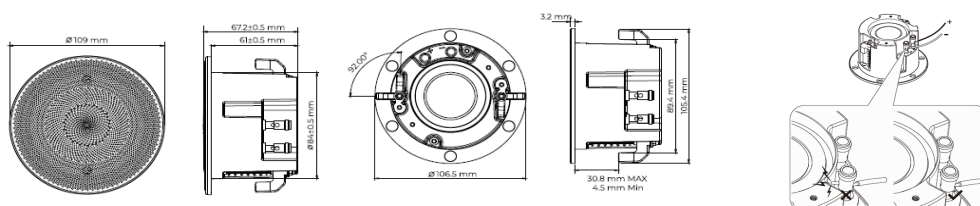

Packed with 2 grills: standard white grill and waterproof silver grill.
