

Outdoor Rock Speaker RK-52

Features

- ▶ Weather proof for outdoor application
- ▶ Made of high-quality resin or glass steel, Elegant yet powerful sound
- ▶ With 20W transformer
- ▶ Widely used in gardens,hotels, commercial buildings, supermarkets,etc.

Installation

1. Pour a rectangular base with concrete in advance at the placement point, in which 2 pieces with a diameter of 8mm are buried.

The bolts are at least 5cm higher than the base plane (see the figure above for the bolt spacing);

2. Connect the audio broadcast transmission line, and select the appropriate terminal edge according to the actual power requirements (see the following table);

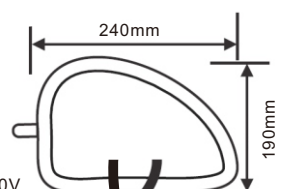

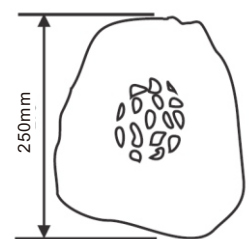

3. Fix the speaker on the base with a nut;

4. Finally, check whether the installation is firm.

Specification

MODEL	RK-52
Power at 100V	10/20W,20W@8Ω
Power at 70V	5/10W
SPL(1W/1M)	95dB
Max SPL@ 1M	105dB
Freq. Response	100Hz~15KHz
Product Size	250×190×240mm
Installation	Ground mounted
Enclosure Material	Synthetic Resin
Weight	3Kg
Finish	Grey
