

## RK-82

### Powerful 91dB IP66 Waterproof Outdoor Rock speakers

Exceptional Audio Performance

#### Description

Byford Audio's Rock speaker delivers rich sound that is both out-of-sight and out-of-mind. They are finished in realistic-looking granite to blend in with most every outdoor installation. Our Rocks are built to take extreme temperatures, all the way from blazing heat to a moist nighttime chill in the deep tundra where you need products that are built literally like rocks. Byford Audio's 8-inch 2-Way Rocks are rugged performers that will deliver punchy, pure high-fidelity sound for rocking and relaxing in the evening after a full day on the job.
